

Ex Services

Inspection and Maintenance by Keel for Energy Sector

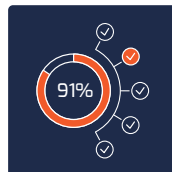

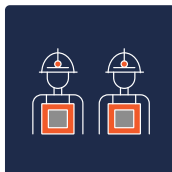

Electrical and Instrumentation Equipment provide the most common source of ignition at high critical assets in all industries. The integrity of Explosion proof Equipment is crucial in managing safety risk on most Oil&Gas offshore and onshore assets.

OUR AIM IS TO OPTIMISE CUSTOMER'S EX EQUIPMENT'S INTEGRITY, SAFETY AND RELIABILITY.

Keel Provides full range of Ex inspection services to various assets operating in energy sector, including onshore and offshore locations, to ensure full compliance with all safety regulations, best practices and international standards, fully in comply with the IEC 60079-17 (Electrical installations inspection and maintenance).

Our competent and experienced CompEx certified engineers carry out well-tailored inspection strategies that are proven to reduce and eliminate electrical hazards at potentially explosive industrial locations.

TYPES AND GRADES OF EX INSPECTIONS MAY VARY ACCORDING TO REQUIREMENTS.

KEEL PERFORMS BOTH INITIAL AND REGULAR PERIODIC EX INSPECTIONS.

Ex physical inspection on site comes up with a plenty of things "To do" in parallel within Customer's ERP maintenance system. As soon as the physical Ex inspection task is completed, Keel engineers process the required "paper work" in the Customer's ERP system directly or providing change files for uploads to Customer's ERP application support team, Registering defects, creating Notifications, reporting Work Orders, inspection and maintenance reports, handling Ex drawings and CMMS update – these are some typical activities that usually follow the Ex inspection itself and what our Customers receive within KEEL Ex inspection service package.

WHY SHOULD YOU INVEST IN EX INSPECTION?

SAFETY

To stay in safety frame during asset's operation at all the time

STANDARDS

To enable compliance with pertinent regulations and performance standards

PERFORMANCE

To improve equipment performance and it's service life

SAVINGS

To eliminate unnecessary expenses, which might occur later
